

## Shop Safety Acknowledgment & Disciplinary Policy Form

I understand that use of the Robotics, Metal and Wood Shops can result in serious personal injury due to irresponsible behavior and/or violation of safety rules. I have thoroughly read, and fully understand, the document entitled "MORT Student Safety Handbook." I agree to abide by these rules at all times without exception. I fully understand that failure to follow safe practices could result in removal from the Mt. Olive Robotics Team.

### SAFETY DISCIPLINARY POLICY

Our team believes that in order to maintain a safe workplace that the students must observe all team policies as they relate to safety in the robotics labs. The following disciplinary policy is in effect and will be applied to all safety violations.

The following steps will be followed unless in the unlikely event that the seriousness of the violation would dictate going directly to Step 2 or Step 3.

1. A first time offense will be discussed orally between the sub-team mentor/lead team mentor and student. This will be done as soon as possible after violation has occurred.
2. A second time offense will be followed up in written form and a copy of this written form will need to be signed by both the student and parent/guardian.
3. A third time violation will result in removal from the Mt. Olive Robotics Team.
