# 1 Welcome to Mt. Olive District Event

## 1.1 Greetings from the Mt. Olive District Event Planning Committee

Welcome to the home of the Mt. Olive Robotics Team and beautiful Morris County, New Jersey! Since its inception back in 1738, Morris County has had a strong connection with inventing and innovation. It was in Morristown that the steam boiler and some of the machinery for the *S.S. Savannah*, the first steamship to cross the Atlantic Ocean, and parts of the first American locomotive were manufactured. The telegraph was perfected in Morris County by Samuel F. B. Morse and Alfred Vail. In fact, the old barn in which the two men conducted their experiments and sent the first message "A patient waiter is no loser," still stands. Since the turn of the century, the focus of industry in Morris County has changed from iron mining and manufacturing to research, pharmaceuticals and communications.

The Mt. Olive District Event Planning Committee welcomes tomorrow's great thinkers and innovators. Good luck to all our participating teams, from near and far! Please use this guide as a reference for our competition; it is full of helpful and useful information that will assist your team as you plan for this event. However, if you have any other questions, please reach out to us using the contact information listed at the end of this document!

We welcome you to Mt. Olive Robotics District Event!

## 2 Getting Around

### 2.1 Directions to the Mt. Olive District Event

The Mt. Olive High School is located at 18 Corey Road, Flanders, New Jersey 07836. The map below shows the location of the high school.

### 2.2 Driving Directions

#### 2.2.1 Driving from the East

Take I-80 West to Exit 27A (Route 206 South toward Somerville). Go to the 2nd Light (approximately 1.7 miles) and make right at the traffic light by the Exxon Gas Station onto Drakesdale Road (County Route 613). Take Drakesdale Road (approximately 1 mile) and make right turn onto Corey Road. The Mt. Olive High School entrance will be on your right.

#### 2.2.2 Driving from the West

Take I-80 East to Exit 27 A-B (Route 206 South toward Somerville). Follow directions above.

#### 2.2.3 Driving from the South

## **3 Load-in/Parking at the Mt. Olive High School**

### **3.1 Robot Unloading Information**

Teams will be emailed on Friday, February 23rd the Robot Unloading Process and maps.

### **3.2 Bus Parking**

**There will be no on-site parking for buses this year.** Teams that have informed the Mt. Olive District Planning Committee by February 13th that they are traveling to our event via bus will be emailed a Reserved Bus Parking Pass. Teams will need to print this pass and provide a copy to your bus driver to gain access to the Reserved offsite Bus Parking Area. Teams will be dropped off at the school, then the bus will be sent to the offsite lot and there will be transportation back to the school for the drivers. Parking Passes will be emailed to your team leader on February 19th. This is to allow additional parking on the school's campus lots

### **3.3 Team Trailer Parking**

Teams that have informed the Mt. Olive District Planning Committee by February 13th that they will need team trailer parking will be emailed a Reserved Team Trailer Parking Pass. Teams will need to print this pass and provide a copy to your team driver to gain access to the Reserved Team Trailer Parking Area. Parking Pass will be emailed to your team leader on February 19<sup>th</sup>. The trailers will be parked.

### **3.4 General Public Parking**

General Event Parking on school grounds will be on a first come, first served basis. If needed, overflow parking at an off-site location with shuttle bus service will be made available. Our parking staff will provide you with directions to our off-site parking locations.

## 4 Event Information

### 4.1 General Event Information

#### 4.1.1 Consent Forms

*FIRST* Consent and Release Forms have several goals in mind: 1) simplification via a unified form; 2) Collecting participant data to make it possible to conduct more effective outreach and marketing to alumni; 3) and give *FIRST* the capacity to conduct regular follow-up studies of its participants in order to better demonstrate impact. This information is critical to *FIRST* because it will provide a roadmap for the organization, guide program implementation and management, and communicate more confidently the impact to schools, sponsors and other groups. In order for *FIRST* to quantitatively state that our programs are positively impacting participating students, corporations, schools and communities we need to collect information on the individual level. The Consent Forms are the only place where *FIRST* collects that type of information.

The goal of the *FIRST* Consent Forms is to ensure the following:

- To get consent and release of liabilities due to harm and/or injury for *FIRST* and *FIRST*'s "Cooperating Entities".
- To grant *FIRST* the right to use participant's likeness during the participation in *FIRST* events.
- To ensure that agents of *FIRST* and on behalf of *FIRST* can collect and analyze information for us.
- To grant *FIRST* the right to contact the Parent/Guardian and participants at a later time for evaluation and/or announce other benefits like alumni outreach efforts.

Because we are dealing with youth and youth information, *FIRST* must be in compliance with the US Children's Online Privacy Protection Act (under the age 13).

**TWO Consent Forms are required for registration at this event.**

#### The Required Forms:

- A Team Roster.
- You must provide the completed ***FIRST* Consent and Release** forms if you did not complete one online.
- The **Mid-Atlantic Robotics** event requires an additional completed release and waiver for each attending team member and mentor.

#### For ***both*** Consent Forms

Please do the following:

**Put your team number on each of the documents.**

Make copies of **each** form for each team member

Have each person fill out **each** form.

**Make sure each person under 18 has a parent/legal guardian sign each form.**

Separate the *FIRST* forms & Mid-Atlantic Robotics forms into two piles and staple the piles.

**Bring both sets to the event registration table.**

### 4.1.2 Event Rules

Please read the following restrictions and adhere to them in order to promote an orderly and exciting competition. As a group, we all should honor agreements with the MAR and help promote the spirit of good partnership.

- **Do not remove any *FIRST* or Team number signs.** *This is stealing!* Signs are needed for multiple events.
- **Do not bring food** into the arena.
- **Do not sell any products.** This includes food, hats, shirts, or any promotional products.
- **Do not give out any free food products**, such as candy, water, soft drinks, or fruit. You may trade team pins, however. *Stickers or Decals are NOT allowed to be distributed as they are often left behind in (and on) the venue.*
- **Do not sell raffle tickets or any games of chance.**
- **Do not use extremely noisy devices, including (but not limited to) floor stompers, whistles, or air horns.**
- **Do not invite or bring live bands** to play in the audience. This dilutes the presentation on the playing field and is too confusing for the audience.
- **Do not play loud music in the Pit** because it interferes with important announcements. If a team is uncooperative, the power to the team's Pit Station will be shut off and/or music confiscated.
- **Do not save seats.** It is not fair to other teams or the public that we hope to interest as team sponsors & volunteers.
- **Do not bring helium tanks.** *Helium Balloons are NOT allowed at the Arena!*
- **Do not arrange for Internet access** on the site or attempt to connect to the Internet.
- **Do not use walkie-talkies** as they interfere with the wireless radios used by event service providers as well as the regional staff.
- **Do not form "tunnels"** during the Awards Ceremony.
- **Do not run in the venue.**
- **Do not wear open-toed or open-backed shoes in the Pits or on the playing field.** This includes "clog" and "mule" style shoes, such as Crocs.
- **Please ensure that everyone in the pit area – including walkways – wears safety glasses.**
- **Any liquid brought into the pit area is a potential hazard! Anyone who chooses to ignore this fact and bring any liquid into the pit area or around the robots does so entirely at their own risk. Teams are asked to use discretion and keep the pits clean and dry.**
- **Finally, please respect the event staff as we are attempting to run a smooth event and keep everyone safe.**

## 4.2 In Case of Emergency

In the event of an emergency at the Mt. Olive High School, make sure to listen to the instructions of the event staff as it may be necessary to evacuate or clear a path for emergency personnel. We recommend setting up a team meeting place outside of the school beforehand. A card with this location as well as other important team contacts would be a great handout to remind your team!

## 4.3 The Pit Area

Teams will receive a pit map when they arrive at the high school on Friday from the Pit Administration Table.

- Each team's pit station will have a table and power outlet.
- Each pit station will have an 18 amp fuse.
- Power to the pit area will be turned off each evening, please plan accordingly.
- Due to safety and insurance regulations, teams cannot build any structure that supports people or items for storage above the work area in their pit space.
- Structures must safely support any signs or displays mounted to them. No structures should be higher than 10 feet above the floor and *FIRST* will require the removal of any pit structure that is deemed unsafe by event management personnel and local committee members.

***As a special reminder, don't forget to bring:***

- A 25 foot heavy-duty extension cord and a power strip
- A cart to transport your heavy robot from the Pit to the playing field.
- Safety glasses for everyone on your team and your guests, if they will be visiting the pits.

## 4.4 Machine Shop Information/Rules

Below are the general rules and process for machine shop work requests:

- The machine shop cannot provide scrap material. You must supply any material that is needed for repairs.
- All requests must go through the machine shop coordinator table. You may NOT take work requests to the machine shop yourself.
- One team representative can initially accompany their request to the machine shop via an event escort, but must leave after providing any needed explanations.
- You may not observe your job being worked due to safety and liability. If you like, you can wait for the part at the Pit Administration Table.
- All work requests are First Come, First Served, unless a reasonable exception can be made. The machine shop cannot guarantee timing for any ASAP requests.
- Once your job is complete, a pit announcement will be made. You may also check back with Pit Administration periodically.

## 4.5 Event Schedule

## 4.8 Event Webcasting Information

District webcast schedule and information will be made available on February 19th. You can find out further details by visiting the Mt. Olive Robotics Team website's district event link below:

[mort11.org/frc/district-event](http://mort11.org/frc/district-event)

## 4.9 VIP Program

As the host of the Mount Olive MAR District Event, we would like to extend an invitation to all visiting teams to participate in our VIP Program. The purpose for the VIP Program is to formally recognize team sponsors, school administrators & faculty, town officials and anyone else who has a supportive role with your team. Every team has supporters that provide financial, educational or moral backing, without which the objectives of the team wouldn't be possible. This is an opportunity to give them the recognition they deserve.

Here's how it will work: First, email us with your team's list of VIPs by February 19th so that we can be prepared to greet them when they arrive. Include each person's name and how they are associated with your team.

Upon arrival at Saturday or Sunday's event, your invited VIPs will check in at the VIP Registration desk. At that time, they will be escorted to your team's pit. You will have the option to either provide your own team ambassador to escort your VIP or we will provide an ambassador for you. We recommend that at a minimum, your ambassador explains FIRST Robotics, the agenda for the day and provide a tour of the pit and competition areas. While in the pit your ambassador should discuss the team's structure, introduce them to team members and mentors where they can talk about their experiences of the build and competition season thus far and review specifics about the robot's design. While touring the competition area, they should explain this year's game and what they can expect to see that day.

Please take this opportunity to formally recognize your team's VIPs as well as give the students a chance to demonstrate their abilities and accomplishments while interacting with them.

VIP lists can be sent to [district@mort11.org](mailto:district@mort11.org).
